

# Certified Production Technician

## Training & Certification

### CERTIFIED PRODUCTION TECHNICIAN

CPT is a nationally portable, industry-led program that prepares and certifies individuals for career pathways in advanced manufacturing. This training program delivers the 21st Century, in-demand skills that today's employers need for over 6 million frontline production jobs.

Columbus Tech is an MSSC authorized training and testing center. Our instructors are easily accessible and certification exams are conveniently offered on campus or virtually.

### Program Certifications

Five stackable credentials:

1. Safety and Employability
2. Manufacturing Process and Production
3. Quality Practices and Measurement
4. Maintenance Awareness
5. Green Production

### Why Select the CPT Program?

- Nationally accredited
- Improves employee performance and retention
- Reduces recruitment and training cost
- Improves marketability when seeking employment
- Customized by Columbus Tech and delivered by our CPT certified instructors
