PROGRAM OVERVIEW

The Drafting Technology program prepares students for employment in a variety of positions in the drafting field, such as drafter or CAD operator based on the

specialization area a student chooses to complete. The program provides learning opportunities which introduce, develop, and reinforce academic and technical knowledge, skills and attitudes required for job acquisition, retention, and advancement. Additionally, the program provides opportunities to upgrade present knowledge and skills or retrain in drafting practices and software.

Students may choose between Mechanical Drafting Specialization and Architectural Drafting Specialization.

Degree program length is sixty (60) credit hours.

Diploma program is forty-six (46) credit hours.

Columbus Technical College is accredited by the Southern Association of Colleges and Schools Commission on Colleges.
