PROGRAM OVERVIEW

The Precision Machining & Manufacturing program prepares students for

careers in the machine tool technology field. Learning opportunities develop academic, technical, and professional knowledge and skills needed for a successful career. The program emphasizes a combination of machine tool theory and practical application necessary for successful employment. This program features a learning lab with CNC machines, manual cutting lathes, and automated manufacturing systems.

Program length is forty-eight (48) credit hours.

Columbus Technical College is accredited by the Southern Association of Colleges and Schools Commission on Colleges.
