

RESIDENTIAL CARPENTRY

DIPLOMA

The field of carpentry offers many opportunities for employment and advancement for workers with solid educational backgrounds and training. Many carpenters also become independent contractors after acquiring adequate funds, skills, and tools. Additionally, carpenters with specialized or versatile skills often enjoy expansive and lucrative job possibilities.

We're here to help you succeed sooner!

PROGRAM OVERVIEW

The Residential Carpentry program prepares students for careers in the residential carpentry industry. Learning opportunities develop academic, occupational, and professional knowledge and skills required

for job acquisition, retention, and advancement. The program prepares students with the skills needed to be successful in the ever-growing carpentry industry. Students will learn how to read and follow blueprints, install structures and fixtures, measure, cut and shape wood and other materials. They'll construct building frameworks including walls, floors, and doorframes and much more. Quality carpenters are highly sought-after.

Program length is forty-two (42) credit hours.

Columbus Technical College is accredited by the Southern Association of Colleges and Schools Commission on Colleges.
