PROGRAM OVERVIEW

The Welding and Joining Technology diploma is designed to prepare students for careers in the welding industry. Program learning opportunities develop academic, technical, professional knowledge and skills required for job acquisition, retention, and advancement. The program emphasizes welding theory and practical application necessary for successful employment.

Students perfect their skills with emphases on safety, quality and work ethics. Once they graduate, our students will have the qualifications needed to be a successful welding and joining technician and will be prepared to take qualification exams.

Diploma program is fifty-four (54) credit hours.

Columbus Technical College is accredited by the Southern Association of Colleges and Schools Commission on Colleges.
