President Martha Ann Todd Columbus Technical College 928 Manchester Expressway Columbus, GA 31904

Dear President Todd:

As you are aware, each year the dedicated members of your College engage in continuous, comprehensive processes of reviewing those practices and procedures designed to ensure the safety and security of your College community. Columbus Technical College was <u>not</u> selected for College Public Safety Assessments for the 2023-2024 academic year.

Please find the following acknowledged documents contained within this mailing for promulgation for the 2023-2024 academic year:

Business Continuity Plan

Please share these documents with the corresponding Columbus Technical College Safety Coordinators for College distribution.

If I can be of help in any way with these subjects, please do not hesitate to contact me directly at <a href="mailto:lbeck@tcsg.edu">lbeck@tcsg.edu</a> or 770-617-8824.

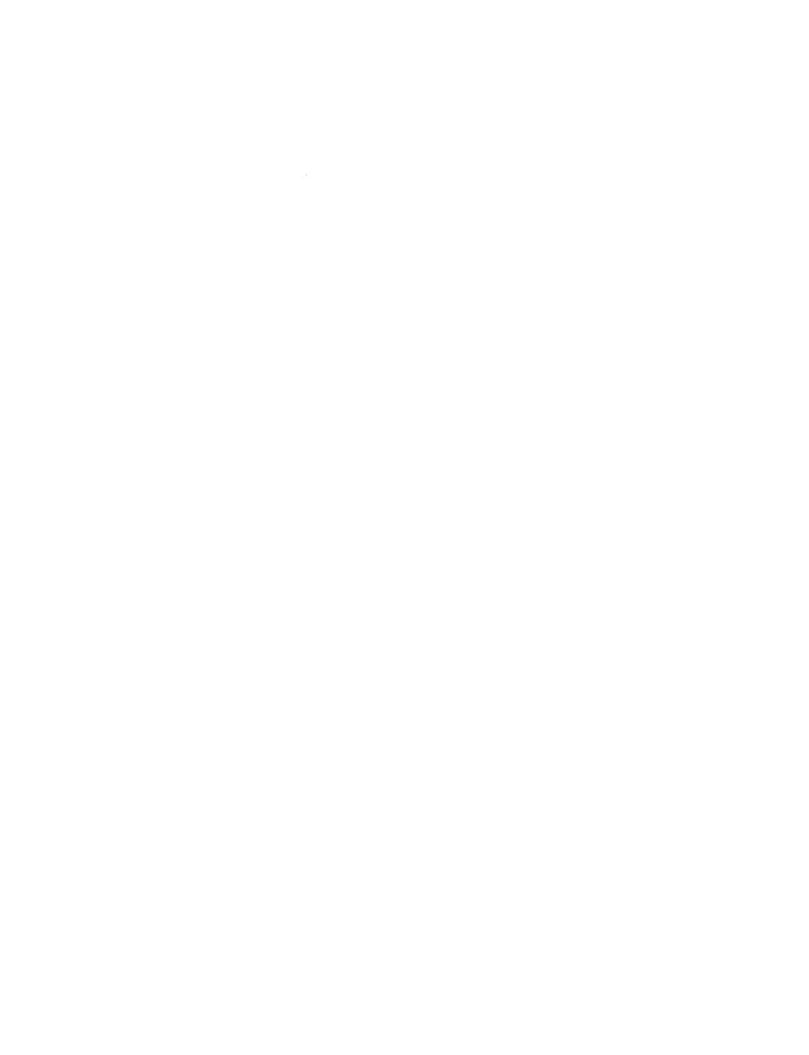

Thank you for your support of the Plans, processes and personnel who help to ensure the safety of your College.

Sincerely.

Lisa Anne Beck

**Emergency Manager** 

(Please forward a copy to your College Safety Plan Coordinators, as detailed on each corresponding letter within, for College distribution.)

President Martha Ann Todd Columbus Technical College 928 Manchester Expressway Columbus, GA 31904

Dear President Todd:

Thank you for submitting the 2023-2024 <u>Business Continuity Plan</u> (BCP) for your College. Columbus Technical College was not randomly selected for College assessments for this academic year. All critical documents related to your 2023-2024 BCP have been received in the System Office. We appreciate the hard work and dedication you and your staff have shown.

Please contact me directly at (404) 679-1666 or <a href="mailto:lbeck@tcsg.edu">lbeck@tcsg.edu</a> if I can be of service to you or your College in any way with concerns you may have in these areas. We wish you a safe and secure academic year.

Sincerely,

Lisa Anne Beck Emergency Manager

Lisu anne mu

(Please forward a copy to your College Business Continuity Coordinator, Tommy Wilson for College distribution.)

### **Business Continuity Plan**

FY 2023-2024

#### Business Continuity Plan Columbus Technical College 2023 – 2024

#### Overview:

The Business Continuity Plan (BCP) supports the State Board of the Technical College System of Georgia (TCSG) Policy II. D. "Emergency Preparedness, Health, Safety and Security" assertion which states, "The Technical College System of Georgia (TCSG) and each of its associated technical colleges and work units are committed to healthy, safe and secure workplaces and/or educational settings for all employees, students, volunteers, visitors, vendors and contractors. Each technical college or work unit shall develop, review and submit, at least annually to the System Office, those plans and procedures which are essential to respond to matters of natural and man-made hazards; public health; occupational and environmental safety as well as security. These plans and procedures shall be established with the goals of mitigating risk to individuals and physical resources as well as of maintaining compliance with national, state and local regulations."

The intent of the Business Continuity Plan is to guide response and recovery from a major emergency and where appropriate, to be linked or combined with emergency operations procedures. This BCP has been prepared through a collaborative process, with a thorough examination of critical mission functions, a systematic hazard vulnerability assessment, and comprehensive development of strategies for each critical mission function recognized to be potentially at-risk during emergency. This BCP is exercised and reviewed annually as a part of the evaluative and planning processes.

Columbus Technical College did experience ONE (1) business continuity incidents during the 2022 -2023 year. In the event of an incident the college's first alert Emergency notification system "Everbridge" will send out notification to students, faculty, and staff to include **Dr. Lisa Anne Beck**, **MEd**, **DC Emergency Manager with TCSG who will be notified, and information kept on file at the central office.** 

Columbus Technical College engages in the following contractual agreements:

Jan-Pro- Columbus 216 10<sup>th</sup> Street Columbus, Georgia 31909 Phone: 706-940-0220

Safety Kleen 6580 Hawkinsville Rd. Macon, Georgia 31210 Phone: 478-788-9398 Columbus Technical College engages in the following training, drills, and exercises:

Employee Annual Trainings which are conducted on a yearly basis. These trainings consist of Active Shooter, Acceptable Computer & Internet Usage, Blood borne Pathogens, Campus Safety & Security Procedures, Hazardous Communications, and Unlawful Discrimination, Harassment & Retaliation in Employment. All trainings require a quiz after each section and the employee must have a passing score of 70 or above.

Required Mandatory TCSG Training consists of Cybersecurity, Human Trafficking, Sexual Harassment, Cybersecurity, to include Diversity, Equity, and Inclusion for the workplace.

The college also engages in Active Shooter Training, Evacuation Emergency Lift Chair Training, Fire and Tornado drills. The protocol for the retention of training records is maintained in the Human Resources Department located at 928 Manchester Expressway, Columbus, Georgia 31904. The contact person is the **Director of HR Henry Gross**, **706-649-1883**, **hgross@columbustech.edu** 

The protocol for the annual review of the BCP will be provided to the Presidents Leadership Team (PLT) which consist of Vice Presidents and Executive Directors of all college departments, to review and make any necessary changes/recommendations and provide current employee critical functions contact information up to date.

The protocol for the retention of the BCP is posted on the college intranet and hard copy located in the Department of Operations, 928 Manchester Expressway, Columbus, Georgia 31904. The contact is **Vice President of facilities and operations Tommy Wilson**, **706-649-1894**, **twilson@columbustech.edu**.

## Business Continuity Plan Worksheet President

Appendix D - Business Continuity Plan Worksheet Exemplar

**Business Continuity Plan Worksheet** 

Work Unit/Technical College Columbus Technical College President

Date: 4/4/23

**Critical Mission Function**: Emergency Communication

#### **Function Description:**

The president's communication is made possible via a mobile office. During times of emergency, the president will be the official spokesperson for the college and work closely with the office of Community and College Relations. The "public information" function is vital for business continuity in the case of any emergency involving the College. The Executive Director of Community & College Relations will serve as a liaison between CTC and community first responders and service providers while overseeing communication to the local media, faculty, staff, and students. Communication will be provided via the Everbridge® Emergency Alert System, the CTC website, Facebook, Twitter, E-mailing, and/or phone calls. Of course, depending on the situation and if technology is unavailable, some adjustments may have to be made.

**Production Location**: Columbus Technical College, 928 Manchester Expressway, Columbus, Georgia 31904. Phone:706-649-1800

Process Manager: Martha Ann Todd, President

Email: mtodd@columbustech edu

Phone: 706-649-1392 (office), 706-977-8015 (cell)

Backup Personnel: Denise Wells, Executive Director of College & Community Relations,

President's Leadership Team members as needed

Email: lwells@columbustech.edu

Phone: 706-649-1290 (office), 706-392-1103 (cell)

#### **Recovery Details:**

**Recovery Strategy Overview**: Constant communication with backup personnel, community organization and relay messages to the public on a regular basis based on fact, not speculation.

3-5-day recovery – Process manager will be in contact with appropriate staff daily ensuring all are on task assignment ensuring a smooth transition during the unforeseen event.

Maximum Allowable Downtime (MAD): 24 hours

**MAD Rationale/Justification**: Official communication in an emergency must begin IMMEDIATELY to avoid panic, rumors, and possible fall-out/legal issues later.

Can process be suspended? Yes

Can process be degraded? Yes

Work-around procedures in place? Yes, Disaster recovery plan.

Work-around procedures tested. Yes

- The College early alert system "Ever Bridge" was deployed to students, faculty, and staff On January 12, 2023 @ 11:31
- Due to projected weather conditions in our six-county service area, Columbus Technical College will close at 1:00 pm for all classes and scheduled events.
- Local Media was notified
- Posted on social media
- E mail alerts sent to all employees
- Information posted on college website

#### **Recovery Point Objective**

(Relocation): Employees Residence/ Campus classroom

Hours to Point Objective: Minimum 10 minutes - Maximum 1 hour

Recovery Time Objective (hours): 0-12 hours

**Hardware Needs**: Laptop and/or desktop computer and/or I Pads, phone, internet access, printer, paper, pens, electricity, and back-up batteries.

**Software Needs**: Internet, Everbridge® Emergency Management system, MS Word, E-mail/Outlook, basic operating system

**Necessary Vendors/Contractors:** N/A

### **Business Continuity Plan Worksheet**

## Executive Director Public Relations and Communications

**Function Description**: The College provides a detailed and coordinated response to unexpected acts of violence, acts of terrorism, accidents or injuries, hazardous material threats, and natural disasters. Columbus Technical College is committed to establishing procedures to lessen the impact of any emergency and potentially disastrous events that may threaten the Columbus Technical College campus, students, or staff. The joint effort of the administration, faculty, staff, and students working and training as a team will be required. A successful response to any emergency which minimizes damage to property or injury to individuals will require our best effort. Our foremost concern is the safety and welfare of the individuals on our campus.

Phone: 706-641-5013 (office)

#### Recovery Details:

**Recovery Strategy Overview**: Documentation that needs protecting includes the files related to compliance submissions. This documentation is relevant for accreditation status and all other ongoing processes necessary to maintain institutional accreditation. So, what is important are the recovery of any network drives that contain relevant information and data, and the availability of the processes to be accessible in a reasonable, but not necessarily short period of time. Accreditation and the rest of the IE processes are dependent on the recovery of all Information Technology systems. Several days for recovery are not a problem in this case due to the long-term nature of this particular function.

3-5-day recovery – Process manager will be in contact with appropriate staff daily ensuring all are on task assignment ensuring a smooth transition during the unforeseen event.

Maximum Allowable Downtime (MAD): 7-10 days

#### MAD Rationale/Justification:

Can process be suspended? Yes

Can process be degraded? Yes

Work-around procedures in place? Yes, Disaster Recovery Plana

Work-around procedures tested. Yes

- The College early alert system "Ever Bridge" was deployed to students, faculty, and staff on January 12, 2023 @ 11:31 am
- Due to projected weather conditions in our six-county service area, Columbus Technical College will close at 1:00 pm for all classes and scheduled events.
- Local Media was notified
- Posted on social media
- E mail alerts sent to all employees
- Information posted on college website

(Relocation): Employees Residence

Hours to Point Objective: Minimum 10 minutes – Maximum 1 hour

Recovery Time Objective (hours): N/A

Hardware Needs: None other than recovery of functionality of those in use prior to disruption.

**Software Needs**: None other than recovery of functionality of those in use prior to disruption.

**Necessary Vendors/Contractors**: N/A

**Special Notes**: Some program content is backed up by vendors.
